

调试技巧

console 引入 jquery

```
var  
importJs=document.createElement('script');importJs.setAttribute("type","text  
/javascript");importJs.setAttribute("src",  
'https://ajax.microsoft.com/ajax/jquery/jquery-1.7.min.js');document.getElem  
entsByTagName("head")[0].appendChild(importJs);
```

提取数组中的href

```
$('section a').each(function(index){  
    console.log($(this).attr("href"));  
})
```

当前页面date

```
var d = new Date();d.setHours(5);console.log(d);
```
